Web	HTML5, CSS3, JavaScript, responsive web design
Programming	C, C++, Java, Python; object-oriented programming
Database	SQL, DBMS
Computer Science	Data structures, computer networks
Developer Tools	Visual Studio Code, Git, GitHub

PROJECT

Shashikant Turf · Turf Booking Website

HTML · CSS · JavaScript

https://starlit-trifle-eb16db.netlify.app

- Created a web-based concept to simplify access to sports turf information and booking services.
- Designed a user-friendly interface for players and administrators with responsive layouts.
- Planned features for turf slot scheduling, day/night floodlight views, notices, and booking management.
- Focused on making routine sports ground booking activities easier to access online.

EDUCATION

Diploma in Information Technology · Currently pursuing

SSC (10th) · Maharashtra State Board, completed
